## PROJECTS

### Mobile App Design

-[Foodies-Online Food Ordering App, Be-Fit Online Fitness coaching web App & Classroom Smart Online Education App]

Designed three Mobile apps considering usability and accessibility for an online food ordering app of a local restaurant helping busy life working users to save time by ordering food online & spend Quality time having their foods without waiting in line for their Orders, an online Fitness coaching app helping people do exercise by staying in their room improving their body strength and improving lifestyle by being Fit & a classroom app to help students and teachers to effectively manage their classroom experience in this lockdown. The User Centric Design Process was followed. Interaction and Motion design were given importance while designing the experience to keep users engaged. A proper UX research process was been conducted to understand user needs.

**Responsive Website Design**-[Battle Ground City-Gaming Website, Be-Fit Online Fitness training website & Foodies Desktop Website. ]

Designed a responsive website considering Both PC/Desktop and mobile versions for Account Creation flow for a popular Video Game, a Desktop website design for Online Food Ordering Considering 60+ elderly-aged user Group & a Fitness Coaching Website. Accessibility, Usability, Interaction Design, Motion design and inclusive design principles were given primary importance while designing the experience.

**Front End Development Projects**- [HTML // CSS // Javascript // React]

Worked On Multiple Front End Development projects for various projects and improved overall experience and design by improving the UX design of Web applications and developed backend in Mern Stack For a Web Based App to collect memories.

## SKILLS

### Technical

Figma // Adobe XD // Google Slides // HTML // CSS // Javascript // React JS // Bootstrap // Front End Development // Web Design // GitHub // Python // MERN Stack // Web Development // Front End Libraries // GIT & GITHUB // SQL //MongoDB // Core Java

### Design

User research // Wireframing // Usability studies // Prototyping // UX Writing // User Testing // Wireframing // User Testing // UX research // User Centered Design Methodologies[USD] // Storyboarding // Storytelling // Design Systems // Accessibility // Material io

### Collaboration

Communicative // Gives design critique + feedback // Strong presenter // Detail-oriented // Public Speaker // Azure DevOps [ADO]
